

BIPPI'S CAVE

Cheat Sheet

Version 0.0.1

At the moment, you can walk the maze, but you can't pick anything up, put anything down, or examine the contents of the bag. Scoring is also not working.

For this Version 0.0.1, Strength is set at 65535 so you can walk the maze for a (**VERY**) long time without dying.

A few General Guidelines for the current status:

1. To start the walk, put the BIPPIS.DSK into Drive 0 and enter RUN "MZWALK.BAS".
2. The moment you exit the Cave, the game is over. There's no going back at that point. Be careful not to go East from the Warehouse (marked "W") accidentally.
3. North is up on the screen. Press the " Up-Arrow " to go North. Press the " Right-Arrow " to go East. Press the " Down-Arrow " to go South. Press the " Left-Arrow " to go West.
4. Press the " D " Key to go down to a lower level. Press the " U " Key to go up to a higher level.
